Rather, the volume seeks to encourage new research through a description of what we might call the 'character' of the collection. .. Salima Ikram's introduction to the reprint (2000: vii) announces work to publish some of her notebooks and manuscripts, now held in the archives of the School of Archaeology, Classics and.

The Biodiversity Heritage Library works collaboratively to make biodiversity literature openly available to the world as part of a global biodiversity community.

String pulling is one of the most widely used paradigms in comparative psychology. First documented. 2 millennia ago, it has been a well-established scientific paradigm for a century. More than 160 bird and mammal species have been tested in over 200 studies with countless methodological variations. The paradigm can.
